

**Welcome to the Little Venice Restaurant & Wine Bar**

We are now well in to expanding our wine list, we are even more sure of the commitment we made offering our clientele not only the largest selection of wine, but also the most comprehensive Bermuda has to offer. Wine lover of all tastes preferences and price consideration will be able to find a wine to their liking.

With a wine list of such size, it can be difficult to set the layout with an easy follow format. We trust that you agree that we have succeeded at this. Another obstacle of size is keeping the vintages up to date. We Endeavor to stay on top of the seemingly constant changes, however situation do arise that are beyond our control. We apologize in advance for any disappointments vintages discrepancies may create. Thank you for your patronage, Cheers !!!

## Barolo

Barolo is an Italian wine, one of many to claim the title "Wine of kings, and king of wines".

It is produced in the communes of Barolo, Castiglione Falletto, Serralunga d'Alba and parts of the communes of Cherasco, Diano d'Alba, Grinzane Cavour, La Morra, Monforte d'Alba, Novello, Roddi, Verduno, all in the province of Cuneo.

Only vineyards in the hills with suitable slopes and orientations are considered adapted to production, and the terrains must be primarily clayey-calcareous in character. The wine is produced from the Nebbiolo grape variety. It matures at the end of September. The clusters are dark blue and greyish with the abundant wax that dresses the grapes. Their form is lengthened, pyramidal, with small, spherical grapes with substantial peel. The leaves are of average size with three or five lobes.

## **Barbaresco**

10

Barbaresco is a red wine and in a way the younger brother of Barolo. Both of these red wines are made in the Piedmont area of Italy, and made from the nebbiolo grape

While Barolo wines are rich and thick, Barbaresco wines are more elegant and aromatic, though still powerful. Also, while Barolo wines have been around for centuries, the

Barbaresco heritage is only a few hundred years old. The Barbaresco area is much smaller than the Barolo area, only 1,200 acres being planted. Barbarescos are aged for a year in wood and is great from 5-10 years of age

**Barbera** is a relatively recent wine for Italy, only mentioned in the 1600s. It's a rich, robust red that is made with the barbera grape. Barbera does very well in Italy and is now the third most planted red grape in Italy

**Dolcetto** is a black wine grape variety widely grown in the Piedmont region of northwest Italy. The name means "little sweet one," though it is nearly always a dry wine

## Brunello di Montalcino

14

Brunello di Montalcino is a red wine produced in the vineyards surrounding the town of Montalcino, Italy.

Brunello is a local name for Sangiovese in Italian, and is one of the best-known wines of Italy.

Brunellos are capable of aging. Brunello must be made from 100% Brunello clones of the sangiovese (a range of clones of the Sangiovese Grosso). It is released no sooner than the fifth year after harvest (i.e. 2001 Brunello is released in early 2006).

Brunello currently must be aged in wood for 2 years and at least 4 months in a bottle before release. Traditionally, the wines are aged 3 years or so in "botte," large oak casks that impart little oak flavor but allow for the controlled softening of the wine.

Modernists use small barrique which impart a more pronounced oak flavor. There is a middle ground where the wine is aged in small barrique for a short time and then spends a longer sojourn in the traditional botte.

Rosso di Montalcino is aged in wood for 12 to 15 months. This wine is the proof that Sangiovese in Montalcino can produce quality wines to be drunk immediately even though there is a marked improvement by waiting a couple of years.

## Chianti

16

Chianti comes from the Chianti region of Tuscany, Italy. Only wines from this region can properly be called Chianti. Chianti was first identified as a type in the 13th century. Its primary red grapes are Sangiovese and Canaiolo, while the main whites are Trebbiano and Malvasia. There are now seven Chianti zones, defined by the Dalmasso Commission.

## Valpolicella & IGT

Valpolicella is a red wine created from corvina, molinara, and rondinella grapes in the Veneto region of Italy. Regular Valpolicella has 11% alcohol and no more than 70% corvina. Valpolicella Superiore is created with at least a year of aging, and must be 12% alcohol. The traditional center of Valpolicella production uses the name 'Valpolicella Classico' - about half of all Valpolicella falls into this category

Masi production strategy aims to emphasize the personality of each single product, while maintaining a recognisable Venetian style. In 1958, Masi was in the forefront of the work to identify the historic "cru" vineyard sites for Amarone. In 1964, Campofiorin was the first in a new category of wines, reinventing the technique of double fermentation and continually updating it. Masi has also updated the style of Amarone, using new appassimento and vinification technologies. Masi wines are modern, attractive, well-balanced and easily identifiable; which have earned Masi recognition for having "revolutionized the art of wine-making in the venetian region"

## **SICILIA**

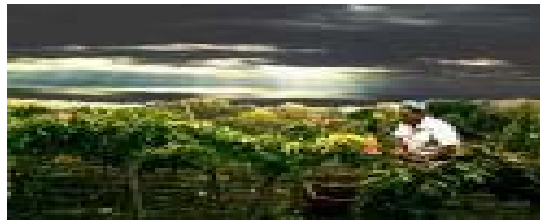

19

One of Europe's oldest viticultural regions still offers some pleasant surprises. Sicily's oenologic history is an ancient one, dating from the time when the island was part of Magna Graecia. One usually associates fine wines with eastern Sicily and the areas near Mount Etna, but many new wineries have sprung up across the island. Sicilian oeniculture is not just varietals. Sicily's vintage wines are a magical creation, and many of the island's traditional wines and spirits are famous far beyond its shores
